Gaza, Palestine
I'm a Full Stack Web Developer passionate about building clean, high-performance, and scalable web applications. My tech stack includes React.js, Next.js, Nest.js, and Express.js.

EDUCATION

Computer Science Engineering
Al Azhar University
2020 - 2025

EXPERIENCE

Domino ICT
Company
09/2022 - 05/2023   *Gaza - Palestine*
FullStack Developer

Achievements/Tasks
- Developed full-stack web apps using React.js, Next.js, Express.js, and SQL.
- Built responsive UIs with Tailwind CSS and optimized frontend performance.
- Designed and integrated RESTful APIs to connect frontend and backend seamlessly.
- Worked directly with clients to gather requirements and deliver custom solutions.

Freelance Content Creator
zerotodev – Instagram
03/2025 - Present

Achievements/Tasks
- Created and managed a programming-focused Instagram page (@zerotodev_) aimed at helping beginners learn coding through short, engaging Reels and posts.
- Designed visuals, wrote scripts, and recorded voiceovers to simplify technical topics and encourage learning.
- Published educational content covering topics like frontend/backend development, problem-solving, arrays, SQL, and learning paths.

SKILLS

HTML   CSS   Bootstrap   Tailwind
JavaScript   React Js   Next Js   Nest Js
Express Js   MySQL   Typescript

PROJECTS

Vella (09/2022 - 12/2022)
- Built the frontend of a company management system to help employees work together more easily.
- Added a feature to schedule and manage meetings between employees.
- Created a system to assign tasks to employees and track their progress.
- Added real-time chat so employees can communicate quickly and easily.
- Made a company calendar with reminders for events and important dates.

ZeroToDev (04/2025 - Present)
- Developed a programming learning platform that offers articles and interactive quizzes on various programming topics.
- Added Q&A sections where users can ask and answer coding questions to help each other learn.
- Built a gamification system that rewards users with points for reading, answering, and interacting on the platform.
- Created user profiles that display skills and include social media links for networking.
